**REACH compliance statement**

With reference to the Regulation (EC) No 1907/2006, issued by the European Union for the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) we can confirm that Spartal Limited and its products comply. Specifically:

- Our products do not intentionally release substances.
- We undertake to continuously assess our products for content of Substances of Very High Concern (SVHC), as identified by the European Chemicals Agency (ECHA) in the "Candidate List" and can confirm that none of our products contain any of the prohibited and restricted substances in the levels indicated.
- We maintain communication flow through the supply chain to collect information about our suppliers' compliance with the REACH Regulation.
- As a supplier of aluminium tubes we do not supply any chemical substances to our customers and therefore are not required to provide safety information sheets with our products.
- Our usage of chemicals within our manufacturing operation takes full account of safety data sheets provided to Spartal Limited. All Spartal personnel have been trained in the correct usage of chemicals in line with the safety data sheet requirements and additional information from the Health and Safety Executive (HSE).

**Restriction of Hazardous Substances compliance statement**

For all materials supplied by Spartal, the levels of;

- Lead
- Cadmium
- Mercury
- Hexavalent Chromium
- Polybrominated Biphenyl (PBB)
- Polybrominated Diphenyl Ether (PBDE)

are all below the maximum permissible levels as stipulated in the European Directive 2002/95/EC RoHS (Restriction of Hazardous Substances).

A handwritten signature in black ink, appearing to read "R Evans".
